

Please automate 2 included scenarios using any Javascript framework you feel the most comfortable with.

Test scenarios:

1. Open 10C home page (<https://10clouds.com/>)
  2. Open Careers tab
  3. Validate that there is exactly 1 'QA Automation Engineer' role open
1. Open 10C home page(<https://10clouds.com/>)
  2. Open Careers tab
  3. Type 'Automation' in Search jobs input
  4. Validate that each result contains "Automation" in title
